**RE: Bonding Company Review of Tampa Roofing**

**To Whom It May Concern:**

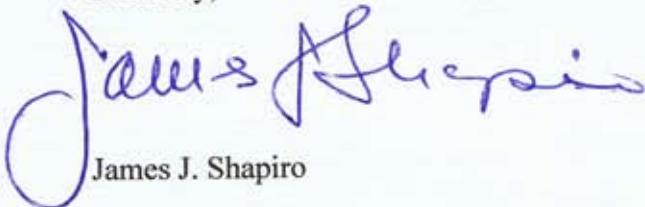

This letter is written regarding my experience with Keith Swope and Tampa Roofing Company, Tampa, FL.

I recently retired as Vice Chairman of Peter Lawrence Commercial Real Estate, Inc. The company owns approximately two million sq. ft. of industrial buildings in Tampa and Miami plus 1.6 million sq. ft. in N. Virginia. Over the years, Tampa Roofing has completed re-roofing and/or substantial roofing replacement on over 25 of our buildings in our Florida markets. Average building size was 70,000 sq. ft.

On all of the work, we have found Keith to be a true professional. He clearly understands the roofing business as a hands-on owner. His specifications are clear and pricing competitive. And most important, Tampa Roofing gave us quality work, the jobs were clean and completion on time. The company stands behind their work.

I've known many vendors in this business. I rate Tampa Roofing among the top for integrity and job performance. Over many years, we never asked for a bond. Knowing that Keith Swope was doing the work was our bond.

Sincerely,

James J. Shapiro
